

Work Experience – Risk Assessment Form for students

The Management of Health and Safety of Work Regulations 1999 (as amended) require employers to carry out a risk assessment for students on work experience. You may use this form to assist compliance. Where a student is of compulsory school age, 'relevant and comprehensible' information about risks to health and safety and the control measures in place must be provided by the employer to the student's parent/guardian [see reverse for details].

Student Details: *to be completed by school/student*

Student Name: _____ School: _____

Parent/Guardian Name: _____

Home Address: _____ Home Phone Number: _____

Is the student of compulsory school age? YES/NO [delete as appropriate]

Risk Assessment: *to be completed by the Employer/Placement Provider*

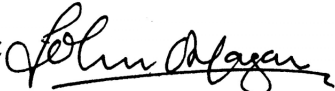

Employer/Placement Provider: Didcot Railway Centre – Home of the Great Western Society

This is a heavy engineering work experience placement based in the sheds at Didcot Railway Centre. The Centre is a working railway museum which carries out locomotive and carriage and wagon restoration. There are a number of hazards associated with this environment, although they may not all be present on any one day.

In carrying out this risk assessment consideration must be given to the work experience student's inexperience, lack of awareness and immaturity

List of significant hazards to which the student may be exposed during the placement: • 'Hazard' means anything that can cause harm	Measures in place to eliminate or minimise risks associated with the hazard [e.g. induction, supervision, training, provision of personal protective equipment] • 'Risk' is the chance, great or small, that someone will be harmed
Slips and trips Heavy materials Sharp materials Working at height Working with chemicals Working with (non-powered) tools Moving machinery Moving vehicles Hot surfaces Noise	The measures to address all of the risks are similar: 1) Induction will be given on the first day of the placement, together with a briefing as set out in the DfES booklet "Work Experience – A Guide to Employers" 2) Close supervision and training will be provided. 3) Access to some areas of the Railway Centre will be forbidden. 4) Students will be required to have coveralls and safety footwear before being permitted to carry out work. If required, safety goggles, ear protection, gloves and a safe helmet will be provided for specific activities. 5) The supervisor will gauge whether it is appropriate for the student to carry out a particular activity and reserves the right to terminate the placement if they consider that the student is not able to accept or cope with the level of behaviour and responsibility required for this environment.

I include details of risks notified to me by other employers for multi-site or where contractors are involved:
Included / Not Applicable [delete as appropriate]

Employer Signature:  Date: 13th November 2007

Name [print]: Dr. John O'Hagan Position: Deputy Chairman, Great Western Society.

Young people are prohibited from doing certain work if, after control measures have been introduced, a significant risk remains.

Risk Assessment

In carrying out the risk assessment for a work experience student placement the Employer must take account of:

- the inexperience, lack of awareness and immaturity of the young person
- the fitting-out and layout of the workplace and workstation
- the nature, degree and duration of exposure to physical, biological and chemical agents
- the form, range and use of work equipment and the way in which it is handled
- the organisation of processes and activities
- the extent of their health and safety training provided or to be provided to the young person
- the risk from specific agents, processes and work listed in the Annex to the European Directive (94/33/EC)[8]*

The outcomes of this risk assessment should be (a) recorded and a copy kept [if 5 or more people are employed], (b) brought to the attention of the work experience student and (c) brought to the attention of the student's parent/guardian where the student is of compulsory school age.

Information for Parent/Guardian

The Employer shall, before providing a child with a work experience placement, provide a parent/guardian or guardian of the child with comprehensible and relevant information on:

- (a) the risks to his health and safety identified by the assessment
- (b) the preventative and protective measures
- (c) the risks notified to the child's employer by another employer

NB This means that for **work experience students who are of compulsory school age**, the Employer **must** provide details of the risk assessment to a parent/guardian of that child. HSE guidance for employers* indicates that the information does not have to be in writing and that employers may develop generic risk assessments for work experience student activities

Protection of Young Persons

Every employer must protect young persons at work. In addition to undertaking the risk assessment (see above), the employer must not **employ** young persons for work which:

- is beyond their physical or psychological capacity
- involves exposure to agents which are toxic, carcinogenic, cause heritable genetic damage or harm to the unborn child, or which in any other way chronically affect human health
- involves harmful exposure to radiation
- involves a risk of accidents which it may reasonably be assumed cannot be recognised or avoided owing to their insufficient attention to safety or lack of experience or training
- presents a risk to health from extreme cold or heat, noise or vibration

NB. In determining whether work will involve harm or risk, regard will be taken to the results of the risk assessment.

Nothing in the above paragraph shall prevent the employment of a young person who is no longer a child [i.e. not of compulsory school age] for work:

- (a) where it is necessary for his training
- (b) where the young person will be supervised by a competent person
- (c) where any risk will be reduced to the lowest level that is reasonably practicable
- (d) except where prohibitions or restrictions on the employment of any person already exist.

Child Protection

Safeguarding of Children in Education (DfES Guidance September 2004), requires that employers have due regard for the welfare of young people in the work place. For some placements it may be necessary to carry out a Criminal Record Bureau check with an employer or placement supervisor. Further child protection guidance for work experience placements is available from the Oxfordshire Education Business Partnership.
